Hi Gloria,

I am looking forward to the training date on Thursday June 2nd. I am familiar with the incident at Foisia Park. It is just another example that we never know when bad things can happen. Luckily, Deputies were able to respond to the incident quickly and there were no reports of injury. The deputies were able to locate and recover nearby what was suspected of being the weapon used. A photograph of the gun was posted on our Carson Station Instagram account if you would like to reference it and attached on this email. I can answer many of the questions asked on your email on the day of the training. Also, I can reach out to our station Chaplain Alex Holt to attend the training and he can be available if anyone wants to seek his religious services. I can also provide some resource numbers from LA County for survivors of violent crimes. If you have not, please consider following our social media accounts particularly our Carson Station Instagram account where we post numerous pictures of Deputies at Carson Station making arrests and recovering many guns throughout the city. This will hopefully inform the public and the community that Carson Deputies are out there doing their best and working hard to help keep the community safe.

Respectfully,

Sergeant Armando Hernandez #504664

This message is from an EXTERNAL SENDER - be CAUTIOUS, particularly with links and attachments

Good afternoon Sgt. Hernandez,

Your active shooter training coming up next week on 6/2 will be very beneficial to staff as we recently had a shooting occur at Foisia Park this past weekend. You will see an email below from my colleague requesting that the training also cover outdoor incidents and requested additional resources as well. This particular incident occurred at our baseball field and some did not know what to do or where to go for cover. I'm sure questions will be asked during your training regarding outdoor shootings as well.

Thank you,
Gloria

Subject: Active Shooter Training

Hi Gloria,

After the shooting this weekend at Foisia, my staff member who was there coaching a team brought up a good point. Usually active shooter trainings assume we are inside a building. Will you please ask the deputy who is providing the training to address an outdoor shooting too?

- For example, she noted that the gunman on the field appeared to be using the kids as a shield, keeping them between him and the car that was stalking him.
- She expressed that many parents and kids visiting Foisia from another park weren't familiar with the neighborhood, and didn't know their way around enough to attempt to flee the area.
- Perhaps the deputy can address these staff members and volunteer coaches with a plan for that type of incident, where basically they feel like sitting ducks. What do they recommend for protecting a group of young kids who are just stuck in a dugout?

Will you please ask the deputy to address this incident specifically? I think our staff members need to feel confident about facing an incident that may present itself again at a park or other outdoor location. Also, if the deputy has any resources for the kids, staff members, and parents who witnessed this violence, I think we should make it available to

them. My staff member was pretty shaken up after she had time to process what happened and what could have happened.

Thank you!

Dani Cook
